                  Not For General Public Release

TOPIC --

When I received version 1.3.6 of the Apple DAL DB Adapter for VAX/VMS, I
received version 1.3 of the Installation Guide, which doesn't describe the new
features of version 1.3.6. The packing list shows version 1.3.6 of the
Installation Guide   How can I obtain version 1.3.6?

DISCUSSION ---

There is no version 1.3.6 Installation Guide for the DAL DB Adapter for
VAX/VMS; the packing list is incorrect. The version 1.3 Installation Guide
contains all the necessary installation instructions.

The Release Notes include information on new features. The Release Note can
be displayed, printed during VMSINSTAL, or can be viewed later in SYS$HELP.
