Apple OneScanner Windows: Micro-Channel Machine Support (9/93)

Article Created: 10 September 1993

* RESTRICTED: Apple Internal and Support Providers Only *
Not For General Public Release

TOPIC -----

Is there any way to connect the Apple OneScanner for Windows to a Micro-Channel machine, in particular a IBM model 55 or 56?

I know the accessory kit includes a SCSI card for AT, EISA bus & PC compatibles, but there is no mention of a Micro-Channel connection.

DISCUSSION -----

There are no SCSI cards to support the Micro-Channel machines. Thus, you can't connect the Apple OneScanner for Windows to a Micro-Channel machine.
