TOPIC -------------------------------------------------------------

I have a customer who is experiencing incompatibilities between a Disktop v4.5
program from Prairiesoft, and the Apple Menu Options (AMO) control panel.

Will this be fixed in the future?

DISCUSSION --------------------------------------------------------

We tested DiskTop version 4.5.1 with the new version (1.0.1) of Apple Menu
Options and the crash has been fixed. This version of AMO will be included with
System Update 1.0 which is due in the first calendar quarter of 1995.
