Arabic and Cyrillic Language Kit: Invisible Files (4/96)

Article Created: 25 April 1996

TOPIC ---

I installed the Arabic and Cyrillic Language Kits and I detected a few
invisible files. What do they do and why are they there?

DISCUSSION --

These invisible files provide additional resources for languages with multiple
scripts. For example, the Arabic Language Kit contains both Arabic and Persian,
and the Cyrillic Language Kit contains Bulgarian and Russian.
