                  Not For General Public Release

TOPIC --

The Centris 650 Main Logic Board upgrade kit includes several grounding strips.
There are no instructions stating where these strips are to be placed. The sizes
are approximately 1/4 inch x 12 inches, 12 inches x 11/4 inches, and 2 inches x
8 inches. How and where should these strips be installed?

DISCUSSION ---

The Service Source CD illustrates how to install the Centris 650 Main Logic
Board upgrade. The CD shows the proper location of the grounding strips, or
gaskets.

The information in this article relative to the Centris 650 is also relevant to
the Quadra 650.

Article Change History:
26 Sep 1994 - Removed binary, redirected to the Service Source CD.
28 Jul 1994 - Added reference to Quadra 650 to aid in searching.
