TOPIC -----

Is there any way to get the LAT Tool software for the communications toolbox without purchasing PATHWORKS? I would like to use a terminal emulator over a LAT connection without PATHWORKS.

DISCUSSION -----

Many terminal emulation software vendors such as Pacer software, Synergy Software, WhitePine software, and Walker Richer and Quinn, Inc. have also licensed LAT, and you will get LAT with their products.

To locate a vendor's address and phone number, use the vendor name as a search string.
