TOPIC -----

How can I get LaserWriter toner cartridges in different colors or with a "graphics" toner?

DISCUSSION -----

Some LaserWriter customers may want special toner cartridges, with color toner or a darker "graphics" toner. Apple doesn't manufacture color or "graphics" toner cartridges. At the present time, if you want these types of toner, you must use recycled toner cartridges.

Apple does not recommend the use of "refilled" toner cartridges. For further information about recycled toner cartridges, refer to the Tech Info Library Article titled "LaserWriter: Guidelines for Remanufactured Toner Carts".
