### TOPIC -----

I just performed a LaserWriter Select 300 to 310 upgrade. There were no software disks in the upgrade packet.

### DISCUSSION -----

The LaserWriter Select 310 software is included with the accessory kit that is part of the upgrade. Check that the appropriate finished goods part number was used when the order was placed.

The LaserWriter Select 310 upgrade order number is #B1300LL/A. The part number starts with a "B", which specifies it as a bundle. The upgrade bundle includes two parts: the controller board, and an accessory kit for the printer.

NOTE: This upgrade is no longer available.
