TOPIC -----

Will the LaserWriter Driver 8.1.1 allow the user to select the paper tray of his/her choice as the default paper tray?

DISCUSSION -----

LaserWriter driver 8.1.1 adds some latitude in this area by providing an option to select either the 250-sheet or the 500-sheet cassette as the default paper tray. This feature can be accessed in the "Configure" dialog during printer Setup from the Chooser.
