TOPIC -----

Is there a way to disable the confirmation page of a fax transmission printed each time you send a fax on the Apple LaserWriter 16/600 PS printer? The LaserWriter 8.2.2f driver allows you to enable or disable this page, but the LaserWriter 8.3 driver doesn't offer this option.

DISCUSSION -----

You can use PostScript to turn off the confirmation page. Here is the PostScript code you need to use:

CAUTION:

If you choose to use the PostScript code provided in this article, you assume all risks involved in making these changes. PostScript code, if not entered correctly, can place the LaserWriter into a condition requiring service.
