Macintosh Duo Dock: Power Distribution for Hard Drive

Article Created: 9 February 1993

* RESTRICTED: Apple Internal and Support Providers Only *
Not For General Public Release

TOPIC -----

What are the specifications for power on the Duo Dock drive bay?

DISCUSSION -----

The Duo Dock can be upgraded with one internal hard disk drive. The space provided is for a 1-inch high, 3.5-inch hard drive.

Power distribution:

- 1.7A surge on the 12V for 8 seconds (this is maximum)
- 0.7A steady state is allocated for the hard drive
