Not For General Public Release

TOPIC -----

What options are available for upgrading VRAM in the Macintosh LC 575?

DISCUSSION -----

The Macintosh LC 575 is available in two VRAM configurations; a 512K VRAM and a 1MB VRAM version.

The 512K version uses two 128Kx16 SIMMs, which consist of four 256Kx4 chips each. The 1MB version uses two 256Kx16 SIMMs, which consist of four 256Kx4 chips each.
