Not For General Public Release

TOPIC -----

Is the Apple MessagePad compatible with third party fax/data modems?

DISCUSSION -----

A third party fax/data modem supporting the specifications listed below may work with the Apple MessagePad. Third party fax/data modems are not supported by Apple and are not tested for use with the Apple MessagePad.

Data

- Bell 103
- Bell 212a
- V.21
- V.22
- V.22bis

Fax

- V.21 channel 2
- V.27ter
- V.29

Also, third-party fax/data modems should conform to Group 3 send/receive fax standards as outlined in EIA/TIA-578 "Asynchronous Facsimile DCE Control Standard" and support a full-featured "AT" command set, compatible with the Hayes V Series commands.

Article Change History:

05 May 1995 - Changed Newton to Apple MessagePad. Reformatted.
