Oracle and Informix: No Support for QuickTime

Article Created: 10 March 1992

* RESTRICTED: Apple Internal and Support Providers Only *
Not For General Public Release

TOPIC -----

Can we install QuickTime information into ORACLE or Informix databases?

Are there any reference sites doing this?

DISCUSSION -----

These databases don't now support the QuickTime data type. We aren't aware of any future plans. Please contact the database vendors for more information.

On AppleLink, you can find contact information for the various vendors by clicking the Library Index button to view the folder structure in the Tech Info Library. An alphabetic listing of vendors is in the Third Party Company Directory folder.
