Personal LaserWriter 320: Loopback for Diagnostics (11/94)

```
Article Created: 11 November 1994
Article Reviewed/Updated: 15 November 1994
```

```
TOPIC ------------------------------------------------------------
```
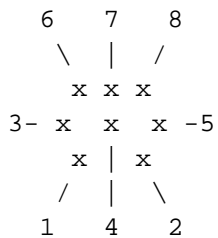

Is there anyway to perform the diagnostics on a Personal LaserWriter 320 without the loopback plug?

```
DISCUSSION -------------------------------------------------------
```

You can short pins 1&2 and 3&5 on the din-8 connector together. This performs the same function as the loopback plug.

```
DIN-8 Pinout diagaram
---------------------
x = pin on connector

        6   7   8
         \  |  /
          x x x
     3- x   x   x -5
          x | x
         /  |  \
        1   4   2
```

This diagram is also available in the Peripheral Interface Guide Service Guide.
