QuickTake 200: Difficulty Downloading Pictures to Camera (2/97)

Article Created: 18 February 1997

TOPIC -----

I am trying to download pictures from my QuickTake 200 to my computer, but the software states it cannot find the camera. Why?

DISCUSSION -----

You need to check the following items.

- Make sure the QuickTake 200 is set to the Computer mode on the mode dial.
- Make sure Apple QuickTake 200 extension is installed in the Extensions folder, located inside your System folder.
