Performa Multimedia Upgrade Kit: Description (9/93)

Article Created: 1 September 1993

TOPIC -----

This article describes the Multimedia Upgrade Kit for Macintosh Performa computers.

DISCUSSION -----

The Performa Multimedia Upgrade Kit includes everything you need to add to your existing Macintosh to enter into the exciting world of multimedia. It combines the speed and power of a Sony double-speed CD-ROM drive and the high quality sound from the AppleDesign Powered Speakers in one affordable package. The Performa Multimedia Upgrade Kit comes complete with two CDs, including the Grolier's Multimedia Encyclopedia and the San Diego Zoo Presents Animals (received through mail-back in return for registration.)

FEATURES

AppleCD 300 External CD-ROM Drive

- Double-speed (300 KB/sec), 295 ms access
- 256KB buffer for faster data transfer
- Automatic lens cleaning and double front-loading door for better dust protection

AppleDesign Powered Speakers

- Optimized output for personal listening
- High-quality stereo separation and sound
- Excellent frequency response using transducer, tuned-port design, and active equalization
- Built-in noise circuitry for clear sound
- Magnetically shielded

Computer Connectivity and Use

- Dual-input mixer for computer and CD-generated sound
- Magnetic shielding to prevent computer display image distortion
- Small, sleek design to fit on a desk

Ease of Use

- Built-in dual-channel amplifier
- Power, volume, and balance controls conveniently located on the front panel
- Head phone jack for privacy

CD-ROM Software included

- Apple Multimedia Starter CD
- Grolier's Encyclopedia
- San Diego Zoo presents animals (mail-back in return for registration)
