Peter & Santa Claus CD: QuickTime Alert (12/93)

Article Created: 2 December 1993

TOPIC -----

Why does an alert appear saying that I need QuickTime installed when I launch Peter & Santa Claus?

DISCUSSION -----

Answer:

- 1) Peter requires at least version 1.5 of QuickTime to run (QuickTime is an extension that plays the movies found on Peter & Santa Claus). The Peter & Santa Claus CD comes with QuickTime 1.6.1. To install it, drag it to your System Folder (press OK when your Macintosh asks if it should put QuickTime into the Extensions folder), and restart your computer.
- 2) If you already have QuickTime installed on your computer, perhaps the extensions were not loaded on start-up. Try restarting your Macintosh. If this still does not work, check the version of QuickTime that you are using by selecting it and choosing "Get Info" from the File Menu.
