## QuickTime Conference: Presentations Window Sizes (9/95)

Article Created: 26 September 1995

TOPIC -----

What are the window sizes of presentations using QuickTime Conferencing?

DISCUSSION -----

When using QuickTime Conferencing with AppleTalk or TCP/IP on a LAN or WAN, the window sizes are standard QuickTime formats:

- Half size = 80x60
- Normal size = 160x120
- Double size = 320x240

When using QTC with a H.320/ISDN card the window sizes are H.320 formats:

QCIF = 176x144

CIF = 352x288
