Article Created: 16 March 1994

Article Reviewed/Updated: 7 April 1994

TOPIC -----

When using the Time Almanac CD, the video is jerky. Sometimes gets type 1 errors or cannot play QuickTime movies. Is there a way to correct this?

DISCUSSION -----

Compact Publishing Inc. has a maintenance update available to fix these problems. The update installs on the hard drive and should be run in place of the Time Almanac icon on the CD-ROM. Contact Compact Publishing Inc. to receive the update.

The TIME Almanac CD update is available for downloading from America Online.
