Downloading Fixes

This site contains all AIX patches which are specific to the Apple Network
Servers as well as all other AIX patches that will work on the Apple Network
Server.

Apple provides a number of mirrored sites on the Internet where you may freely
download Apple Software Updates. Due to the size of the archive contained in the
fixdist.support.apple.com server, the Apple Software Updates archives do not
mirror this site.

Though we do not guarantee all fixes will be immediately made available, we will
try to make them available as soon as possible.

For more information on Apple Software Updates not specific to the Apple Network
Server, please visit

http://www.info.apple.com/
or
ftp://ftp.info.apple.com/

NOTE: Do not download AIX patches for the Apple Network Servers from the IBM

servers! This fixdist server should be your only source for these patches.
