Where Are OT/PPP Control Panel Settings Stored? (4/97)

===

Article Created: 1 April 1997
Article Reviewed/Updated: 2 April 1997

TOPIC --

Where are the Open Transport/PPP control panel settings stored?

DISCUSSION ---

The configuration information entered through the PPP control panel are stored
in the Remote Access Connections document (System Folder:Preferences:Remote
Access:Remote Access Connections). Removal of this file clears all PPP control
panel preferences including saved configurations and connect scripts.

Modem scripts used by OT/PPP are stored in the same location as ARA modem
scripts, (System Folder:Extensions:Modem Scripts).

Modem control panel settings are stored in the Modem Preferences file (System
Folder: Preferences: Modem Preferences).
