## Motile: Brief Description (6/95)

Article Created: 9 June 1995

Article Reviewed/Updated: 12 June 1995

TOPIC -----

The following is a brief description of Motile software. This software is available on PCMCIA media, not on Macintosh or Windows diskettes.

DISCUSSION -----

Motile challenges you to manipulate an animated player through labyrinths in which you must scrub out and construct walls and avoid traps to direct the animated player to the end goal. It features 120 levels to keep you busy.

PCMCIA media Motile is a StarCore product. Support for this software when used with an Apple MessagePad is provided by the Apple Assurance Newton Support Group at 1-800-SOS-APPL (767-2775).

Article Change History:

12 Jun 1995 - Corrected name of product.
