Newton: A.M. Appointments Scheduled for P.M. (7/93)

Article Created: 30 July 1993

TOPIC-----

I have scheduled several appointments incorrectly, because Newton thinks I'm talking about 10 P.M. rather than 10 A.M. How do I make sure I'm putting the entry next to the correct hour?

DISCUSSION-----

Be sure to check whether the hours on your Calendar are written in plain or bold text. Newton's Calendar writes the A.M. hours are in plain text and the P.M. hours are in bold text. Each day on Newton's Calendar begins at 12 A.M. (midnight) -- written in plain text -- and ends at 11:59 P.M. -- written in bold text.
