Newton: Changing Recognized Text to Handwriting (7/93)

Article Created: 30 July 1993

TOPIC---

Can Newton change recognized text back to handwriting?

DISCUSSION--

Yes. Make sure the text recognizer button on the bottom left of the screen is
darkened. Then, double-tap the word you want changed, and tap the handwritten
version in the menu.

Once you change text back into handwriting, it cannot be changed back
into text again.
