## Newton MessagePad: Changing Fonts in To Do List (8/93)

Article Created: 20 August 1993

TOPIC -----

If I change the default font or style by opening the Styles icon in the Extras drawer, the font or style is changed everywhere except the To Do List. Why?

DISCUSSION -----

The Newton MessagePad's To Do List does not use the default font settings as chosen in Styles; it defaults to plain 12 point text. After you have entered text in the To Do List, you can select this text, and change its style by opening the Styles icon.
