Newton MessagePad: Deleting Printers From List (8/93)

Article Created: 27 August 1993

TOPIC --

How do I remove a printer from my Newton's print slip (or dialog box)? I've
just renamed my Laserwriter, but its old name is still in the print list.

DISCUSSION ---

The print list in the Newton MessagePad can display a total of two printer
names, with the most recently selected printer name displayed on top of the
list. There is no way to delete a printer from this list.

You can remove a printer name by choosing another printer from either the
"Network printers" or "Other printers" selections. This will remove the
oldest name from the print list. In your case, this will be the old name of
your LaserWriter.
