Apple MessagePad: Default System Dates (5/96)

Article Created: 8 May 1996

TOPIC -----

I am trying to create a new not on an Apple MessagePad 120. When I draw a line underneath an existing note, the line disappers and a new note does not show on the screen.

DISCUSSION -----

Either scroll up, or look at the notes overview for the new notes. If you performed a hard reset and did not set the date, new notes appear before any existing notes.

Below is a table which shows the default system date and time settings.

Begin_Table

MessagePad Model	Default System Date and Time	Default Note Date
Original MP	1 Jan 1993 12:00 PM	1/1/93 11:00 AM

End_Table

When setting the clock, you should first check the Time Zones for the correct setting. The default setting is the Pacific Time zone.
