TOPIC ---

How can I send and receive e-mail from Digital Equipment Corporation over
AppleLink?

DISCUSSION --

The Internet addresses of Digital end with ".enet.dec.com". For example,

    jdoe@juliet.enet.dec.com

To send mail from AppleLink, type the person's Internet address and append
the string "@internet#" at the end. The completed example string is:

    jdoe@juliet.enet.dec.com@internet#

Digital VMS users can send mail to you through the Internet using your
AppleLink address plus the string "@applelink.apple.com". For example:

    kong.tony@applelink.apple.com
