PowerCD and A/UX Incompatibility (6/94)

Article Created: 18 February 1994

Article Reviewed/Updated: 6 June 1994

TOPIC -----

Is A/UX 3.0.1 compatible with the PowerCD? Will A/UX 3.1 be compatible?

DISCUSSION -----

The Apple PowerCD is currently NOT compatible with A/UX 3.0. There are no known plans to make A/UX 3.1 compatible with the PowerCD.

If you try to run a PowerCD on an A/UX system, you may see the following symptoms:

- The PowerCD extension software will be crossed out on startup.
- Trying to mount a CD will always bring up this error message, "Not a Macintosh Disk: Do You Want To Initialize?"
