Built-In CD-ROM: Separate CD-ROM Software Installation (1/95)

Article Created: 4 January 1995

TOPIC -----

There is some confusion about which 7.1 backup Install Me First CDs have the CD Setup files as a separate installation. Which computers do you have to install the CD files separately after installing the operating system.

DISCUSSION -----

There are six systems, that we are aware of, that include CD-ROM drives, but do not get the CD-ROM software installed as part of a system software installation. These systems are:

- Centris 610
- Centris 650
- Quadra 610
- Quadra 650
- Quadra 800
- LC 575
