Macintosh 21 Color Display: Shipping with CD-ROM

Article Created: 4 October 1991

Article Last Reviewed:

Article Last Updated:

TOPIC -----

Why is Apple shipping a CD-ROM in the box with the Macintosh 21-inch Color Display?

DISCUSSION -----

The CD-ROM is full of color images, color clip art, screen savers, and demo versions of the most popular color software applications. With this disc, you can experiment with the latest in full color software and immediately take advantage of the features of the new display.
