Apple 5.25 Drive: Macintosh Compatibility

Article Created: 14 February 1992

Article Last Reviewed:

Article Last Updated:

TOPIC -----

Is the Apple 5.25 Drive compatible with the Macintosh IIsi?

DISCUSSION -----

No. Support for the Apple 5.25 Drive was discontinued when Apple started implementing the FDHD ROMs. This means that the Apple 5.25 Drive is compatible with only the Macintosh SE (800K drives) and Macintosh II (800K drives).

We suggest that you research third-party solutions; for example, DaynaFile from Dayna Communications.

On AppleLink, you can find contact information on a company mentioned in this article by clicking the "Library Index" button in the lower-center of the Tech Info Library search window, then opening the "Third Party Company Directory" folder.
