GeoPort Telecom Adapter: Can Send Without Fax Cover Sheet(1/94)

Article Created: 6 January 1994

TOPIC ---

I have a Macintosh Quadra 840AV and a GeoPort Telecom Adapter. I'd
like to send only the fax cover sheet using the Express Modem Software
that came with the Adapter. Since I can only fax from within an
application that prints, I can't send just the fax cover sheet. How
can I send a fax with just the cover?

DISCUSSION --

You can't just send the fax cover sheet that's installed with the Fax
Cover application. However, you can send just your fax without the
cover sheet. You do this by choosing "none" from the Fax Sender Cover
Page pop-up menu. This will mean that no cover page is attached to the
fax. Therefore, the first page of your document will now be your
"cover page."
