TextBridge 3.0H & Other Supported Scanners (11/96)

Article Created: 18 November 1996

TOPIC ---

Does the new TextBridge 3.0H software support any scanners other than the Apple
Color OneScanner 600/27 and 1200/300?

DISCUSSION --

The TextBridge manual we distribute with the Apple Color OneScanner 600/27 and
1200/30 answers your question.

The TextBridge application will support a variety of scanners, those that are
TWAIN compatible, those listed both in the TextBridge manual on pages 1-5 and
2-8, and those on their web page. The two scanner drivers bundled with the Color
OneScanners provide support for the Apple Color OneScanner 600/27 and 1200/30.

The TextBridge version Xerox Imaging Systems distributes comes with more
drivers. Also, on page 1-5 of their manual lists approximately 30 supported
drivers from Pixel Translations Incorporated. (We believe Pixel Translations
Inc. is now a part of Cornerstone Imaging.)

Cornerstone Imaging may be reached at:
  http://www.cornimage.com

Xerox can be reached at:
  http://www.xerox.com

TextBridge information may be obtained at:
