Apple OneScanner: Printer Calibrations

Article Created: 9 October 1991

Article Last Reviewed:

Article Last Updated:

TOPIC -----

Which calibrations come with the Apple OneScanner? What do users with non-Apple printers do?

DISCUSSION -----

The default set of calibrations include all Apple printers as well as the HP DeskWriter and PaintWriter, the Linotronic 300, and the Varityper VT600. Users can easily add additional calibrations via a simple process that involves printing out a built-in chart and scanning it back in.
