Color One Scanner 600/27: White Border Using Dispatcher (5/96)

Article Created: 14 May 1996

TOPIC ---

I have a Color OneScanner 600/27. When I scan an image with the Apple Color
OneScanner Dispatcher software, there is a white line approximately five pixels
tall that appears at the bottom edge of the scanned image. Is there something
wrong with my scanner?

DISCUSSION --

This is caused by the Apple Color OneScanner Dispatcher software. The line can
be eliminated with any graphic editing application like Photoshop or
ClarisWorks.
