## Color OneScanner Dispatcher Software: Image Cropping (7/96)

Article Created: 9 July 1996

TOPIC -----

With both v1.0 and v1.0.2 of the Apple Color OneScanner Dispatcher Software, When I select Preview after selecting Straighten Automatically, the automatic option Suggest Crop is also selected. Why?

DISCUSSION -----

You are seeing the normal operation of the OneScanner Dispatcher Software. If you do not want to use the suggested crop, you should use the selection marquee prior to crop your image prior to selecting Scan.
