Macintosh Compatible Hand-Held Scanners and Bar Code Readers

Article Created: 30 August 1989

Article Reviewed/Updated: 26 July 1993

TOPIC -----

I need a light pen for the Macintosh (NuBus or ADB).

DISCUSSION -----

We have listed examples of four different types of "light pen input devices" or related devices.

Fixed-Position Bar-Code Readers

- UNi Bar Code Reader from TPS Electronics, connects via the keyboard or ADB port

- Datapen from Datalogic, Inc., connects via the keyboard

Portable Bar-Code Readers

- TimeWand from Videx, Inc. (a serial device requiring serial download through a communications program which is available from Videx.)

- XP-300 Portable Bar Code Reader from TPS Electronics, a portable, serial device.

Hand-Held Scanners

- LightningScan from Thunderware, Inc. A hand-held scanner capable of handling images up to 4 inches wide; interfaces to any Macintosh SCSI port.

- ScanMan for Macintosh from Logitech, Inc. A hand-held scanner capable of handling images up to 4.1 inches wide; interfaces to any Macintosh SCSI port.

Touch Screen

Mac 'N Touch from MicroTouch Systems, Inc.

To locate a vendor's address and phone numbers, use the vendor name as a search string.

Article Change History:
