Apple Scanner: Not Compatible With the IBM PC (6/94)

Article Created: 15 June 1994

TOPIC ---

I have a customer who wants to use an Apple Scanner with an IBM PC clone.   This
works with the OneScanner, but can it be done with the original Apple Scanner?

DISCUSSION --

There are no drivers that let the customer use the Apple Scanner on Windows.
Ofoto from Light Source, Inc. does have a solution for the OneScanner and
Windows but neither Apple, Light Source, nor anyone else has the Software for an
Apple Scanner and Windows.

To locate a vendor's address and phone number, use the vendor name as a search
string.
