Apple Color Plotter: Using it with a IIc

To use an Apple Color Plotter with a IIc, attach the plotter to Port #1 and set
its switches as follows:

```
   1       2       3       4       5       6       7       8
  OFF     ON      ON      OFF     OFF     ON      ON      ON
```

These switch settings correspond to: 9600 baud, 8 data bits, no parity, and 2
stop bits.
