Color StyleWriter Pro: New Black Ink Tank (8/95)

Article Created: 20 June 1995

Article Reviewed/Updated: 28 August 1995

TOPIC -----

I tried to order a replacement Color StyleWriter Pro Black Ink Cartridge (M1952G/A) using the information provided in my user's guide, but according to my local dealer it was discontinued by Apple. The cyan, magenta, and yellow cartridges are still available. How do I obtain a replacement black ink cartridge?

DISCUSSION -----

The original Black Ink Cartridge (as specified in the printer's user's guide) was discontinued by Apple so that an improved version with an extended life could be introduced. The new ink cartridge is called the Color StyleWriter Pro Black High Capacity Ink Tank, and it can be ordered using finished goods model number M3822G/A.

The Black High Capacity Ink Tank is slightly larger in size, which nearly doubles the ink carrying capacity for the black ink. The new ink tank design uses extra space next to the black ink tank to allow for the larger ink tank.
