Color StyleWriter 2400: Cartridge Missing Error (11/94)

Article Created: 1 November 1994

TOPIC ---

I am trying to print using my Color StyleWriter 2400, but I get an error message
that the cartridge is missing or not installed correctly. I have verified that
the cartridge is installed properly, and I can print a test page, I just can't
print anything from my Macintosh.

DISCUSSION --

If you are using a LocalTalk cable instead of a serial cable, this error message
appears. Unless you purchased the LocalTalk option, you should be using a
Peripheral 8 cable, not a LocalTalk cable with the Color StyleWriter 2400.
