Editing the ImageWriter File for Custom Paper Sizes

Article Created: 31 March 1988
Article Last Reviewed: 5 November 1991
Article Last Updated: 31 March 1988

TOPIC -----

This article describes how the page size can be changed for the ImageWriter and ImageWriter II if the page sizes in the Page Setup box do not meet your needs.

DISCUSSION -----

If the five paper sizes offered in the ImageWriter's Page Setup dialog don't meet your needs, you can use ResEdit to change ImageWriter resources. This is NOT a solution that Apple can support, so you make these changes at your own risk. Detailed instructions are provided in MacWorld magazine, January 1986, pages 58-63.

ResEdit is available through the Apple Programmers and Developers Association. Copyright 1988 Apple Computer, Inc.
