## ImageWriter I: Not AppleTalk-Compatible

Article Created: 14 May 1991
Article Last Reviewed: 27 May 1991
Article Last Updated:

TOPIC -----------------------------------------------------------

Is the ImageWriter I printer AppleTalk compatible?  If so, what is the
interface card?

DISCUSSION ------------------------------------------------------

The ImageWriter I is NOT AppleTalk compatible.  The only possible way we
know that you might be able to make the printer available on a network
might be using something like a Shiva NetSerial device.
