Color LaserWriter 12/600 PS: DeskTop Printing Reqs 7.1.1 (7/95)

Article Created: 6 June 1995
Article Reviewed/Updated: 19 July 1995

TOPIC ---

The DeskTop Printing Software was not installed with my Apple Color LaserWriter
12/600 PS installation. How can I get the Desktop Printing option?

DISCUSSION ---

If you have System 7.1 then Print Monitor 7.1.2 has been installed. DeskTop
Printing software requires System 7.1.1 or higher. Specifically the Finder needs
to be 7.1.3 or higher. After installing System 7.1.1 or greater, reinstall the
Color LaserWriter 12/600 PS software and DeskTop Printing will be installed.
