LaserWriter 16/600 PS: Disable NetWare If Not Needed (1/95)

Article Created: 30 January 1995

TOPIC -----

If you are connected to a Novell network, and do not properly configure the LaserWriter 16/600 PS for Netware an IPX bindery request is broadcast every 30 seconds.

DISCUSSION -----

In order to prevent the bindery request, configure the printer for Netware or disable IPX using the Apple Printer Utility.

Disabling Netware

- 1) Place the Configuration switch in the UP position
- 2) Launch the Apple Printer Utility
- 3) Use Custom Switch option
- 3) Select Ethernet Port, NetWare, Mode, Off.
