LaserWriter 8.0: Global Village Incompatibility (5/95)

Article Created: 4 October 1993
Article Reviewed/Updated: 24 May 1995

TOPIC ---

I have a Global Village fax modem on my PowerBook. I'm constantly getting Type
1 errors. I've done a clean install of system software, and ran Disk First Aid.
 When I fax using the Global Village software it goes through, but then the
document becomes corrupted. This doesn't happen with the LaserWriter driver
7.2, only with the 8.0 driver.

DISCUSSION --

This is a known problem and has been fixed in the LaserWriter driver
version 8.1.1 and all LaserWriter drivers released after v8.1.1.

Article Change History:
24 May 1995 - Added information on later LaserWriter drivers.
