LaserWriter Driver 8.2 and Unknown PPD Files (9/94)

Article Created: 26 September 1994

TOPIC -----

We have just installed LaserWriter driver 8.2, and there are 3 new PPD files in the "Printer Descriptions" folder:

- LaserWriter Pro 400
- LaserWriter Pro 405
- LaserWriter Select 610

Are these new Apple printer models?

DISCUSSION -----

All of the Apple printers mentioned are sold only in Japan. The LaserWriter Pro 400 and 405 are OEM laser printers, and the LaserWriter Select 610 is the Japanese version of the LaserWriter Select 360. All of these printers have been optimized for Kanji font use. There are no plans to market these printers in the U.S.
