LaserWriter 8.x: Must Use At Least System 6.0.7 (8/96)

Article Created: 7 December 1994

Article Reviewed/Updated: 20 August 1996

TOPIC -----

I would like to know if LaserWriter 8.1.1 is compatible with System 6.0.5.

DISCUSSION -----

LaserWriter drivers 8.0, 8.1.1, and 8.1.2 were tested with System 6.0.7, so they are compatible. However, it is not know if System 6.0.5 is compatible, since no tests were performed using this version of System 6. We would recommend upgrading all Macintosh computers using System 6 to System 6.0.7 or System 6.0.8.

Backward compatibility testing with System 6.x ended with LaserWriter 8.1.2., so LaserWriter driver 8.2 was not tested with any version of System 6.

Article Change History:

20 Aug 1996 - Updated with information on later LW 8 drivers.
